“Where Recycling Meets Innovation”

About Eco Waste Solutions

Eco Waste Solutions: The green choice for **toxic paint sludge waste recycling!**

OUR VISION

At Eco Waste Solutions, our vision is to revolutionize the paint sludge recycling industry by providing safe, sustainable, and eco-friendly solutions. We strive to be trusted leaders in managing paint waste, ensuring that our practices not only protect the environment but also promote towards a greener future. Our commitment is to deliver innovative services that empower individuals and businesses to make responsible choices for the planet. By reducing hazardous waste and embracing environmentally conscious methods, we aim to create a cleaner, healthier world for generations to come.

COMPANY PROFILE

We are certified by the Maharashtra Pollution Control Board (MPCB) & Maharashtra Enviro Power Limited (MEPL) with a well equipped in house lab for all paint quality testing & development. We currently have a installed capacity of 500MT/month in a spacious area of 2 acres.

Recycling Of Paint Sludge

Eco Waste Solutions is proud to introduce our groundbreaking and eco-friendly technology for recycling paint sludge. This innovation is designed to balance the natural cycle between the environment and the lives of human beings, plants, and animals by helping companies contribute towards a "GREEN EARTH."

In this innovative technology, hazardous paint sludge is converted into Primer, Undercoats, Floor Coating & Structural Primer etc. as per customer's specification & requirements.

PAINT SLUDGE

FINISHED GOODS

BENEFITS OF PAINT SLUDGE RECYCLING

- **Quality Recycled Product:** Converted product will meet all the requirements and the quality parameters specified by the customer.
- **Conserve Natural Resources:** To Incinerate one ton of paint sludge approx. 110 Ltr. of fuel (HSD) is required and after that too it leaves residual ash as ruminant waste to be further disposed.
- **Eliminate Air Pollution:** By recycling we are also eliminating emission of gases which incineration normally produces thus contributing to Environment.

ECO-FRIENDLY SAFE PROCESS

- **Eco-Friendly RM:** All the conversion raw materials supplied by us are free from Lead & Chrome.
- **Conservation of Water:** There is minimal generation of waste water.
- **Reduced Waste:** There will be only 2- 5 % ruminant waste of the total product produced.

Our Products

At Eco Waste Solutions, we offer a range of [high-quality, eco-friendly products](#) derived from recycled paint sludge. Each product is manufactured to meet stringent quality standards and customized to our customers specifications.

RED OXIDE

RED OXIDE GLOSS

THINNER

EPOXY PRIMER

ZINC CHROMATE YELLOW

HARDENER VARNISH

BLUE ENAMEL PAINT

GREEN ENAMEL PAINT

ORANGE ENAMEL PAINT

BLACK ENAMEL PAINT

OUR QUALITY STANDARD

At Eco Waste Solutions, we are committed to delivering products of the highest quality. Our stringent quality standards ensure that every product we manufacture meets or exceeds customer expectations and regulatory requirements.

By adhering to these rigorous quality standards, Eco Waste Solutions ensures that our products not only meet the highest benchmarks of quality and performance but also contribute to a sustainable and eco-friendly future
